Dear Alumni and Friends,

The Walton College is one of the top public business schools in the United States. This year, students have placed in top positions at national competitions. For instance, in the 2004 Rice University Business Plan Competition, four graduate students took second place and $30,000 — with first place going to Carnegie Mellon University and third place to UCLA. Faculty continue to take national leadership roles. Carolyn Callahan, Doris Cook Chair in Accounting, was elected vice president of the American Accounting Association. We are also in the planning stages for facilities that will be competitive with some of the outstanding business schools in the country — a new graduate school building, featuring state-of-the-art educational and research facilities.

**NATIONALLY COMPETITIVE STUDENTS, FACULTY AND FACILITIES**

**COLLABORATION FOR SUCCESS**

The success of our students and faculty is the direct result of the continued support of our alumni, friends and the business community. We value each of you. We are heading into the final year of the University of Arkansas Campaign for the Twenty-First Century. An important condition of the University of Arkansas receiving the Walton Family Charitable Support Foundation’s $100 million gift continues to impact students, faculty and the state. The Center for Retailing Excellence is well on its way to becoming one of the leading retail research and outreach centers in the country.

The success of the Center for Retailing Excellence can be directly attributed to its partnership with members of the retailing industry. Collaborating with business and community leaders, the Center provides executive education and networking, research opportunities, scholarships, experiential learning, internships and connections with employers. Founded in 1998, it is an example of the many ways the Walton Family Charitable Support Foundation’s $50 million gift continues to impact students, faculty and the state.

**WARM REGARDS,**

DOYLE Z. WILLIAMS
